Software Engineer with experience in Python, JavaScript, Node.js, ASP.NET Core, React, SQL, and AI/ML technologies. Skilled in developing web applications, REST APIs, database-driven solutions, and scalable software systems. Hands-on experience in NLP projects, Amazon SageMaker, and full-stack application development. Strong problem-solving skills, adaptability, and a passion for learning new technologies. Committed to delivering high-quality solutions that drive business value and contribute to organizational success.

WORK EXPERIENCE

Software Engineer — **May 2025 - Present**
JOY IT Solutions — **Coimbatore, India**

- Developed full-stack web applications using ASP.NET Core, React, and PostgreSQL.
- Built REST APIs, dynamic forms, approval workflows, and configurable low-code/no-code modules.
- Implemented JWT authentication, RBAC, Repository Pattern, and Unit of Work architecture.
- Developed AI chatbot, supplier reverse bidding, and document processing features including OCR and digital signatures.
- Worked on React Hooks, database optimization, deployment, debugging, and performance enhancements.

Analyst — **Apr 2024 - May 2025**
Objectways Technologies — **Coimbatore, India**

- Worked on AI and NLP projects for data processing and model support.
- Utilized Amazon SageMaker for dataset management and model-related tasks.
- Performed data analysis and quality assurance activities.

Full Stack Developer Intern — **Mar 2023 - Jul 2023**
Infognana (IG) Solutions — **Coimbatore, India**

- Developed web application features using JavaScript and Node.js.
- Assisted in API development and database integration.
- Participated in testing, debugging, and feature enhancements.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science and Engineering — **Jun 2020 - May 2024**
Akshaya College of Engineering and Technology — **GPA:** 7.65

Higher Secondary Certificate (HSC) — **Jun 2019 - Mar 2020**
Sri Vijayya Vidhyalaya Matric Higher Secondary School — **GPA:** 69.1%

Secondary School Leaving Certificate (SSLC) — **Jun 2017 - Mar 2018**
Sri Vijayya Vidhyalaya Matric Higher Secondary School — **GPA:** 77.6%

SKILLS

Programming Languages: C, C++, Python, JavaScript, TypeScript, SQL

Frontend Development: React.js, HTML5, CSS3, Bootstrap, Ant Design, React Hook Form

Backend Development: ASP.NET Core, .NET Web API, Node.js, Express.js, REST APIs, Entity Framework Core

Databases: SQL Server, PostgreSQL, MySQL, Database Design

Development Tools: Git, GitHub, Visual Studio, VS Code, Postman, Swagger

Architecture & Concepts: Repository Pattern, Unit of Work, CRUD Operations, Authentication & Authorization, Role-Based Access Control (RBAC), API Integration

CERTIFICATIONS

ChatGPT (Credential ID: L713428F9D276Z6a3R) by **GUVI (in association with HCL)** — **Sep 2023**
Python (Basic) (Credential ID: 078857142D4F) by **HackerRank** — **Aug 2023**
JavaScript (Credential ID: 61Ae2R7jC434568t9O) by **GUVI (in association with HCL)** — **Aug 2023**

PROJECTS

JOY PIM (Product Information Management)

- Developed an AI-powered chatbot to provide intelligent product information assistance and user support.
- Designed and implemented a supplier reverse bidding module with automated evaluation and lowest-bid supplier selection.
- Built document processing features including OCR, document split/merge, format conversion, digital signature, and stamping workflows.
- **Technologies:** ASP.NET Core, .NET Web API, React, JavaScript, PostgreSQL, AI Integration.

GRC (Governance, Risk & Compliance) Platform

- Developed a low-code/no-code platform where UI components, workflows, and forms are dynamically rendered based on JSON configurations.
- Built configurable modules to enable business users to create and manage applications without code changes.
- Developed REST APIs, dynamic form rendering, approval workflows, and role-based access control.
- **Technologies:** ASP.NET Core, .NET Web API, React, JavaScript, PostgreSQL.
